

What is Blended Learning?

It is a mix of all mediums and platforms to give your child the best experience of **thinking, social and emotional skills.**

A preschool away from preschool....

**Podar Jumbo Kids,
a preschool that comes home!**

Podar Jumbo Kids

The only preschool with
age appropriate,
Engaging and
Interactive blended learning
for your child.

Your child cannot
come to school.....
but **Jumbo** can connect
with your child through our
Virtual Blended Learning Program.

At Podar Jumbo Kids

We believe in doing everything that is age appropriate for your child, because our philosophy is 'Kiducation'.

At Podar Jumbo Kids

We have divided our blended learning into three important components because we know that you are busy with 'work from home' and 'work at home'.

- Teacher- child Interaction
- Parent- child interaction
- Independent child activities

Podar Jumbo Kids believes that

in this time of pandemic, children need a strong immune system. Healthy food, exercise and happiness boost the immune system.

Our blended learning activities have all 3!
