

Dear Parents,

Its time for children to play and learn @ home!
So, Podar Jumbo Kids presents a unique Home-School play
and learning connection called:

Jumbo Live with Jumbo's EYFS Play Engine

Play is the engine of learning so Podar Jumbo Kids has designed a Play engine for your child so that your child does not miss out on the daily communication, social and emotional connect, so required in the foundational years.

Parents are busy with 'work from home' and 'work at home', and children end up spending time watching television or watching endless content on loop on the mobile phone. The American Academy of pediatricians points out that the inappropriate content that children watch is more dangerous than the screens!

So here comes **Jumbo's EYFS Play Engine** with some home based, play based fun-learning connections. They will experience stress free connections with Kingdom of Letters, Number Magic, Live Rhymes and Stories and games with shapes, colours and concepts. All the while learning about home chores, non-fire cooking, values of helping and caring and hygiene rules for a healthier body.

During this pandemic it is important that your child gets a daily dose of fun, connections, health and hygiene to ensure that your child is happy and engaged and is not missing out on any learning activities. When children cant come to Kindergarten...the Kindergarten comes homes in a developmentally appropriate manner

Happy children are Healthy children and Happy children
make a Happy and Healthy Family.
Enjoy Jumbo Live with Jumbo's Play Engine.
