

Parent of Master Zaid Shaha, a student of **Podar Jumbo Kids Ratnagiri** has shared that Zaid has started expressing his thoughts and emotions through his drawings which they really appreciate. This has been possible through the various innovative and engaging activities in the Home School Play And Learning Connection at Podar Jumbo Kids.

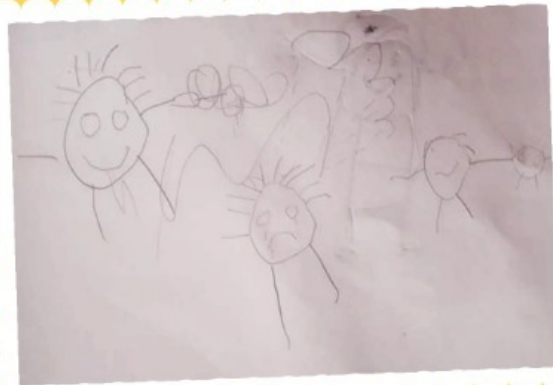

The parent has shared a recent experience of Zaid expressing himself through his drawing...

“ This #home school blended learning at Podar Jumbo Kids is not only teaching our kids many important life skills but also they are learning to express their feelings. This is a drawing made by my son studying in SR KG in which he has drawn me (Zaid's mother) scolding him for fighting with his 2 yr old brother and how he felt sad after that.

Really proud of him that he is learning to express himself through art. First step towards creative skills.

I felt bad for scolding him but couldn't stop myself from sharing this drawing...

Thank you PJK. ”

Inspiring and loveable moments to share!

A Jumboite, Kiara Sonawane Ahmednagar centre engaged in Home School Play and Learning Connection with her Grandparents...

Kiara's parents have started reporting to their office and to ensure that Kiara continues her learning with the Home School Play and Learning connection at Podar Jumbo Kids, her grandparents have gone that extra mile to understand how technology works. Kudos to Kiara's Grandparents from Podar Jumbo Kids.

Here is an inspiring example of a Podar Jumbo Kids Parent- **Dr. Gargee Bahekar** managing her dual duty of serving the sick in these difficult times and as well spending quality time with her son, **Master Arihaan Bahekar** studying in Sr.KG at Podar Jumbo Kids-Gondia engaged in the Home School Play Learning Connection.

Our salute to the Parent who is a Frontline Warrior too

“Your efforts and initiative are bringing results”

A motivational feedback received from Dr. Dipti Brajesh Prajapati, mother of Ritvi Prajapati studying at Podar Jumbo Kids Nagpur Besa on the Home School Play and Learning Connection . Here is her candid feedback to share with everyone...

Dear Ankita Ma'am,

You are doing such amazing work under the current circumstances. We admire her teaching methods and how she focusses on each and every student. We are very proud of Ritvi's performance. I would like to thank you for all your efforts in engaging the kids even on the online platform. We do understand, it isn't easy for you, you teach our kids with a smile and determination. Ritvi is enjoying and learning and looks forward to participating in the class every day. We are absolutely satisfied with the learning through the new medium.

I really appreciate the way the teachers have stepped up, I know how much efforts and preparation it takes to conduct a class with young children. Children are enjoying and they do daily wait for the online classes.

Thanks for your time and 😊 effort. Thank you once again ma'am for your constant encouragement, patience, understanding and valuable guidance.

Regards,

Dr. Dipti Brajesh Prajapati -Ritvi's Parent.
