

## 1 Numeracy and Literacy Activity Videos:

The concepts of literacy and Numeracy are recorded as videos by the teacher which are interactive with voice modulation, interactive games and a home play assignment for children. These videos involve the child through open ended questions and various actions as they listen and see the activity video by the teacher.

## 2 Parent Resource Sheet:

The Numeracy /Literacy activity video is then supported with a Parent Resource sheet for parents which comprises of activities related to the concept of Literacy/Numeracy taught for the day. These activities are simple yet fun comprising of games involving household material, yoga, action based recitation, singing rhymes, interactive games and worksheets to do.

Session 6 Senior.KG – Numeracy Day 3 Number name One	
Activity Time	Practice Time
<b>Materials required:</b> Any toys Child to pick up any toy and say the cardinal number 1. Child to say the number name 'one' while giving the toy to the parents.	<b>Materials required:</b> Old newspaper, glue, pencil and blank sheet of paper. Give an old newspaper to the child and ask the child to tear the newspaper and crumple it. Write number name one on the piece of paper and ask the child to stick the crumpled papers on the number house 'one'.
<b>Fun Time</b> Number train, load the containers with the correct number name. <a href="https://www.dreamtobacco.com/resources/3972156">https://www.dreamtobacco.com/resources/3972156</a>	<b>Game Time</b> Materials required: 2 Blank sheets of paper and 2 pencils. Ask your child to turn vertically the wall with a blank sheet of paper and a pencil. Parents to keep another blank sheet of paper on the back of their child and write number 1 with a pencil. Child has to guess what the parent has written and write the same on his/her sheet of paper. After the child has written something on the paper, write number name 'one' and ask the child to guess. Write the same in his/her paper.

## 3 Active Exploration:

This comprises of different activities for the child to do at home. Daily the child is given a combination of any 2 activities from the below listed:

### • Fun with Origami :

Children are given the steps to make various things with origami which builds their concentration, fine motor skills and logical thinking skills.

### • Fun with Role Play:

An imagination building activity and a way for children to connect with the things in the outside world.

### • Shadow Play:

An engaging activity for children as they create various creatures on the wall with the help of the shadow of their hands. It builds their creative thinking skills while having fun.

### • Traditional Games:

This activity brings the age old games back in children's lives and as well promote quality family bonding time.

### • Music and Movement :

The children listen to a music audio and have fun creatively expressing themselves using facial expressions and boldily movements.

Thus, Jumbo's Play Engine-Home School Play and Learning Connection at Podar Jumbo Kids ensures children during this pandemic get their daily dose of fun, connections, health and hygiene to ensure that children are happy and engaged and are not missing out on any learning activities. When children can't come to Kindergarten, the Kindergarten comes home in a developmentally appropriate manner!

Happy children are Healthy children and Happy children made a Happy and Healthy Family. We make children Happy through our Jumbo's Play Engine-Home School Play and Learning Connection.
